

The Core VIP Collection – 11 Original Artworks – Create a separate section for this collection in the Essence Hall on the EXSA website

11 physical artworks, created with colored pencils, 11*14 inches, each representing an archetype of human transformation, emotion, and cosmic truth.

These artworks make people dive into their true emotions, inner struggles, and revelations that live inside every fantastic soul. Each piece is a mirror and an activation, touching the deepest parts of being.

Add info about Phygital Dimension (AR + NFTs) when opening the page:

Every artwork is **not just physical**:

- Embedded microchips unlock AR experiences — **characters come to life and guide your journey of self-discovery.**
- NFT certificates ensure authenticity, secure royalties, and open portals into the digital realm.
- Together, they form a **phygital bridge** — where a physical piece becomes an interactive universe, one that continues to live, evolve, and connect with the community.
- **Art Activations** take the form of **dance performances** — each collector receives a **personalized ritual**, where the artist activates the artwork and its spirit specifically for them.

↓

- ★ For each artwork there is an option to buy either the original or a print – to make EXSA accessible beyond high-end collectors. Holders of the original artworks will have a full AR experience, access to VIP community, bonuses and full art activation. *Also we can add an option to get an original and art altar-soul activation together, as a bundle.

Name and Description of the Collection:

OM'RAK

Clumped dirt between the toes, a torn voice, a burst lightbulb, a decaying body, broken connections, fog, disappearing galaxies. Your footprints are still warm here, even though you're still sitting in this dark room. Someone erased the boundaries between you and what you kept in the dirtiest corners of your consciousness. You were summoned to unravel. You are unacceptable and here,

you are loved exactly like that. Your pain is not subject to explanation. Your darkness — not subject to cleansing. You won't be shown the way out. 11 icons see right through you — symbols with which you fall apart and find freedom in honesty and love for the dirty basement of the soul. Wash yourself in your inner mold, don't cleanse the soul, just open it.

Enjoy the aesthetic of organic, honest, decaying freedom — the one that smells like truth, not human incense.

See and love yourself completely with OM'RAK — a collection of PHYGITAL artworks. Pshhh.
