

SOUL ACTIVATION — ART ALTAR

What it is

A Soul Activation ART ALTAR is a sacred mirror of people's true essence created through Alina's alien channeling. Each artwork is a **framed original drawing** made with a microchip that connects people directly to EXSA: unlocking their digital profile and/or interactive AR experience.

It is an altar made to guide, protect, and remind people of who they truly are.

What creatures (people) receive

- **Original framed artwork** of their soul, activated with a microchip that opens their EXSA profile and/or AR micro-world.
 - **Performance Art Activation** — a ritual captured in video where Alina activates the artwork through movement.
 - **Written transmission** — Alina's intuitive reflections on what she felt during the art process, with personal guidance on people's self-exploration journey.
 - **Sacred phrase** — a secret message inscribed within the artwork, a mantra for people's spirit. Words to return to again and again: *"I don't give a fuck"*, *"The world is mine"*, or the exact vibration flowing through their being.
-

Who is it for

- Fantastic souls in transformation.
 - Those who crave to feel alive and in touch with their essence.
 - Beings with too many emotions locked inside, seeking expression and power.
 - Those longing for a **bright visual anchor** that awakens and reminds them of their truth every day.
-

The Process

1. People receive a short **questionnaire** to fill before creation — <https://docs.google.com/forms/d/e/1FAIpQLSfpgG7Nuc22-iPjlaVQsoV0yEn67je7kXlsifL0II4Nj6iL9Q/viewform?usp=dialog> (link)
2. Alina reads the answers, then enters her **alien state of flow**, scanning the soul and energy of the being.

3. Intuitive visuals come into her spirit. She translates them onto paper using **high-quality materials: colored pencils and markers.**
4. The artwork becomes a **personal altar**: showing what people need to know, see, and feel at this stage of their existence.
5. Each piece includes a **secret phrase** flowing through people's spirit, inscribed as a hidden key.
6. People receive an artwork that serves as a **daily tool for self-discovery, empowerment, and protection** against the noise of humanity.
